This ultimate pack is a collection of these individual packages:

1. Animated Trees Package
2. Animated Tropical Vegetation

The package includes a set of 73 animated trees and plants.

How to Use:
Open *Animated Trees Package* or *Animated Tropical Vegetation* folder and choose the *Prefabs* folder then. You will see 2 subfolders *Animated* and *Static*. The *Static* one contains all trees in the non animated version.

To see all the trees and plants, open *DemoScenes* folder, and choose one of the two demo scenes.

Note:
To install URP or HDRP materials select *URP Materials* or *HDRP Materials* package file that you will find in the main folder and import all files.
